

THE VEST MAN

Why External Vest Carriers That Are Not Custom Fit Are Not Worth The “Bargain”

- Every body armor company makes their own shape of body armor, therefore, if the body armor you have is not the exact same shape and size of the non-custom vest you are considering, it won't fit. More importantly, it will not hold your body armor to the safest spot on your body!
- Body armor companies will void your body armor warranty if they have not approved a third party external vest carrier. Here at The Vest Man we have signed agreements with most major body armor companies. The reason they agree to work with us is because we take the time to make sure our carriers are made safely and respect the guidelines of the product they make.
- Ask about the warranty that comes with a non-custom fit vest carrier. Chances are there is no warranty at all. And because their material is not as durable as ours, it will not even last half of the time ours will.
- Non-custom tailored vest carriers are not waterproof or fade proof. The Vest Man guarantees our vests to be water and fade proof for 5 years!
- At The Vest Man we can offer additional features like a hidden back up weapon pocket, or an interior cargo pocket, that cannot be offered by a non-custom carrier maker.
- Bottom line is you get what you pay for. If your goal is to have a form fitting vest carrier that looks sharp on every officer, then you need to pay a bit more and get a product produced in America that is personally designed for each officer's body and ballistic panels.
